

**Spring Forum Report
Chapter 47
March 24, 2007**

Strengths: Very strong group of core members who ensure that Chapter 47 preserves its vitality.

Weaknesses: Not enough “new blood” coming into the Chapter who are motivated to be extensively involved.

Opportunities: Pursue younger new members and convince them that it is to their benefit to be involved.

Threats: Less perceived need to personally network with other professionals, therefore monthly meetings not attended as extensively as desired.

General Condition of Chapter: Good. Membership is not declining. We have a good time together. We routinely offer classes.
